IN MEMORIAM
In memory of my dear husband, Luther Collier Elder, who passed away November 28, 1959, 1 year today.
A dear husband, gone for ever,
I miss your kind smile,
You left me to remember,
On earth, take your place.
I have not lost my soul's companion,
He is linked with my own;
And day by day I miss him more,
I walk through life alone.
A happy home we once enjoyed,
Now sweet the memory still;
But death has left a loneliness,
The world can never fill.
—Wife: Ollie Myers Elder.

IN MEMORIAM
In sad but loving memory of our devoted father, L. Collier Elder, who entered into eternal rest November 28, 1959.
Sadly pondered by friends, we are lonesome,
In the midst of our joys we are blue.
With a smile on our face, we have heartache,
For you.

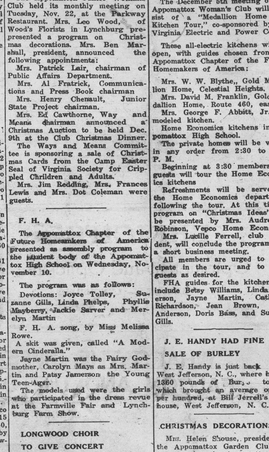
Patrick Lair, New Blacksmith



Patrick Lair, son of Cdr. Lair, USN retired, has opened a blacksmith shop on his fathers farm, "Lo-Lair," three miles south of Pamplin.
Upon graduation from Princess Ann High School in 1958, Patrick started his apprenticeship under 73-year-old L. L. Williamson, 55 years a blacksmith in Norfolk, Va. He also worked with Mr. Roland Duvall formerly of Lynchburg, Va. Patrick was the first apprentice that Mr. Williamson trained in 40 years.
"Most of my friends think I am crazy, and I know a lot of people have tried blacksmithing and given up because the work was too hard. But I like hard work, and I love horses. I can mix them both on this job," he said. He is shown above with his Standard Bred Trotter, "Leprechaun." He has shown him extensively in the Virginia and North Carolina horse show circuit.
The family also own, at the present time, a pleasure horse and two Shetland ponies.
Patrick isn't the traditional broad bulging muscle type blacksmith. He is a slender 5'9". In spite of his size he has yet to find the horse he cannot handle. Another tradition he also has changed, the old time blacksmith shop no longer exists. Everything that Patrick needs for horseshoeing is carred in a trailer. The equipment includes forge, anvil, shoes to fit all size horses and ponies, files, nails, rasps and all other paraprnalia needed in the trade.
In addition to blacksmithing and farming, Lair is a member of the 5th Rifle Co., United States Marine Corps Reserve, Lynchburg, Va. His ambition in life—to continue blacksmithing and raise horses and ponies on his farm someday.

USDA ANNOUNCES SCHEDULES OF GRADE

LOAN RATES FOR 1960 TOBACCO CROP

The U. S. Department of Agriculture today announced that the schedule of Commodity Credit Corporation loan rates for the 1960 crops of Burley, flue-cured and dark air-cured and Virginia sun-cured tobaccos are now available.
Under provisions of legislation approved earlier this year, price support for the 1960 crop of these kinds of tobacco is fixed at the same level as for the 1959 crops. These levels are 57.2 cents per pound Burley, 38.8 cents per pound for flue-cured, and 34.5 cents per pound for dark air-cured and Virginia sun-cured.
For Burley, the loan rates by grade are the same as for the 1959 crop and range from 24 to 72 cents.
Minor increases and decreases from the rates applicable to the 1959 crop have been made in some of the grade loan rates for fire-cured, but the range from 13 to 64 cents remains unchanged.
For dark air-cured and Virginia sun-cured, the loan rates, by grade, are the same as for the 1959 crop. These rates range from 20 to 52 cents for dark air-cured, and from 16 to 57 cents for Virginia sun-cured.
As in past years, growers will offer their tobacco at auction markets in the usual manner and price support will be made available to cooperating growers through farmer cooperative associations, which will utilize, on a continental basis, the services and facilities of auction warehouses and leaf packing firms.
Under the 1959 loan program, approximately 12.3 million pounds of Burley, 6.2 million pounds of flue-cured, 3.7 million pounds of dark air-cured, and 13,000 pounds of Virginia sun-cured tobacco were placed under loan.
Copies of the loan rate schedules may be obtained from the Tobacco Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C.

WHAT A HEALTH SURVEY CAN MEAN TO US

A chest x-ray can show any number of abnormalities. Each x-ray survey our county has conducted, has shown up at least one case of early lung cancer. All the ones found were operated on and are now doing well.
Enlarged hearts show up on the x-ray films. Deformities also show up.
Sincerity is a very rare virtue.
